## SUMMARY

---

Software Quality Assurance (SQA) professional with hands-on experience in manual and automation testing. Skilled in test planning, API validation, regression testing, and sprint-based quality delivery. Passionate about improving software reliability through automation frameworks, test optimization, and collaboration with developers.

## SKILLS

---

- **Testing:** Manual, Regression, API, Functional Testing, Test Case Design, Bug Tracking
- **Automation:** Python (Automation Scripts), Selenium (Basic), PyTest, API Fox, Postman
- **Tools:** JIRA, Git, VS Code, Anaconda, PowerShell, Jupyter
- **Development:** Django, FastAPI, REST APIs (for backend testing)
- **Databases:** SQLite, MongoDB

## EDUCATION

---

**B.Sc. Artificial Intelligence**, Dawood University of Engineering and Technology      Expected Sep–Oct 2026

## EXPERIENCE

---

**QA Analyst**      Oct 2025 – Present  
TechForge, Karachi

- Conduct end-to-end testing for international clients (Dubai, US, and UAE).
- Execute manual test cases, validate bug fixes, and ensure sprint deliverables meet QA standards.

**QA Automation Engineering Intern**      Jun 2025 – Sep 2025  
Coventech, Karachi

- Worked on **DeftGPT** ([deftgpt.com/](https://deftgpt.com/)), a Chinese AI product, as QA for 3 months.
- Built Python-based automation using PyTest and Selenium; validated REST APIs via API Fox.
- Participated in sprint reviews, UI/UX checks, and release quality validation.

**Project Manager & Business Development Manager**      Sep 2025 – Present  
Rasinnovatech, Karachi

- Manage client acquisition, project coordination, and workflow setup for startup operations.
- Conduct client meetings, oversee proposals, and ensure timely and quality project delivery.
- Collaborate with teams to align business goals with technical deliverables.

**Freelance QA & Python Developer**      2023 – Present

- Built and tested automation tools (email/WhatsApp bots) ensuring functional reliability.

## PROJECTS

---

- **DeftGPT QA Suite** — Designed automation and test cases for [DeftGPT](https://deftgpt.com/), validating API endpoints and backend workflows. [\[GitHub\]](#)
- **Blog Tool Testing Framework** — Automated API/UI validation scripts for Coventech's blog tool.
- **Microservices GitHub Analyzer** — Tested Django + FastAPI microservices; verified API reliability. [\[GitHub\]](#)

## CERTIFICATIONS

---

- **Python Project for Data Science** — IBM (Coursera) [\[Verify\]](#)
- **Python for AI, Data Science, and Development** — IBM (Coursera) [\[Verify\]](#)
